WORK EXPERIENCE

SoftwareDeveloper | Gulp2go Products Pvt Ltd., Gurugram

August 2025 - Present

TechStack- React.js, Vite, Typescript, Tailwind, Redux, Axios, Html, CSS, Javascript

- Contributed to the development of a cross-platform web and mobile app featuring offers, ads, quizzes, and games — resulting in a 35% increase in daily user engagement.
- Developed and maintained 15+ responsive UI components using React, TypeScript, Tailwind CSS, and Redux, improving UI load times by 40% and enhancing user experience consistency across devices.
- Built the Vending Machine WebApp, enabling users to order products via QR scan, OTP verification, and automated dispensing — reduced manual processing time by 70%.
- Integrated advertisements across both mobile and web application, supporting ad promotions.

Software Developer | ShipGlobal, New Delhi

Sept. 2024 - July 2025

Tech Stack - React.js, Vite, Typescript, Tailwind, Shadcn, Redux, Zustand, Zod, Axios

- Collaborated on scalable web applications using React, TypeScript, Tailwind CSS, and Redux, improving UI consistency and reducing defect rates by 25%.
- Developed Franchise, Vendor, and Admin panels to manage shipment orders, implementing single-box and multi-box workflows that reduced order processing time by 35%.
- Built and optimized 20+ responsive UI components using Shadcn and custom hooks, ensuring cross-device performance improvement.
- Refactored legacy components and applied best practices during code reviews, leading to faster rendering and 15% fewer production bugs.
- Collaborated with team members and mentors via GitHub, Slack and JIRA.

iOS App Developer Intern | Infosys, Mysore

May 2024 - June 2024

Tech Stack - Swift, Swift UI Kit

- Developed a Library Management System with dedicated interfaces for students, librarians, and administrators, each with distinct functionalities.
- Collaborated in an Agile team to build an iOS app, managing tasks and user stories through Jira.
- Designed and implemented frontend logic and UI flows for all panels, ensuring seamless integration and user experience.

PROJECTS

TO-DOLIST APP

May 2025

Developed a feature-rich Todo List application using React and Redux, enabling users to manage tasks, backlogs, completed, and pending lists efficiently. Implemented CRUD operations for seamless task management and ensured state persistence using Redux. Built a responsive website for this using React and Tailwind CSS, providing a visually appealing user experience.

SIGHTGUIDE iOS APP

August 2024

SightGuide is an app designed to help blind and visually impaired users navigate indoor spaces using auditory instructions and haptic feedback. The app offers real-time guidance and object detection, ensuring users move safely. Whether identifying obstacles or guiding users along a clear path, It provides an intuitive, hands-free solution for indoor mobility.

SKILLS

Proficient: React, Redux, Tailwind, HTML/CSS, Javascript

Frameworks/Libraries: Typescript, Shadcn, Vite, Zod, Zustand, Axios, Bootstrap, Oops

Developer Tools: Visual Studio, Git/Github

Soft Skills: Team Collaboration, Communication Skills, Attention to Detail
